

A+ Computer Science - Class Complete Worksheet 1

DIRECTIONS : Fill in each blank with the proper java code.

```
public class Adder
{
    private int numOne, numTwo, answer;

    public void setNums(int n1, int n2)
    {

    }

    //method add totals up numOne and numTwo
    public void add()
    {

    }

    //method print displays the sum of numOne and numTwo
    public void print()
    {

    }
}

//code in the main of another class
Adder test = new Adder();
test.setNums(32,21);
test.add();
test.print();

test.setNums(15,8);
test.add();
test.print();
```

OUTPUT

32 + 21 = 53

15 + 8 = 23
